Of particular interest to DXers is a new 10-Band DXCC award, recognizing operators who achieve DXCC across all bands from 6 to 160 meters (except 60 meters), with higher endorsement levels available "at the 200, 300, and Honor Roll levels, like the DXCC Trident". **Details of the DXCC Trident Award, introduced at the January ARRL BOD Meeting, are expected to be detailed later this week on both ARRL News and website.'**

The timing works out well with the CQ Worldwide SSB Contest happening that weekend, which will bring lots of participation from stations worldwide. The plan is to start things off with a few days operating as NP2R from the US Virgin Islands (October 20-22); allowing the team to test equipment before moving over to the British Virgin Islands for the main VP2VRX operation during the contest (October 23-28). ZD9, TRISTAN DA CUNHA DX-World has learned that a Tristan da Cunha Dxpedition is in the pipeline for 2025. Whilst it is quite some time away, we have gleaned the following info.
It will be a 3-4 month long DXpedition to ZD9 which could be extended by another 2-3 months bringing it to (potentially) 6+ months. The additional months could depend on PayPal donations / extra donors. Focus is going to be on CW & SSB. There will be VERY LIMITED usage of FT8. Infact, FT8 will ONLY be used on 80 & 160 meters. Bands of operation will be 10 meters to 160 meters. 1kW to monoband heavy duty vertical antennas due to Tristan da Cunha's very inhospitable weather.

Special International Calls

CQ International Dog Day during August

When a group of radio operators begin calling "CQ International Dog Day" in August, they're not just looking for QSOs.

They are in search of people who have room in their hearts to help the abandoned, abused and homeless dogs around the world in whatever way they can. These dozen or so special event operators know the power of rescue because they've been deeply involved in it themselves: Hanz YL3JD and his wife opened their home – first in Holland, later in Latvia – and have given needy dogs a second chance at a new family. In Australia, and later in Germany, Ed DD5LP and his wife discovered – several times – that their household was incomplete without canine company. Many of the other operators' rescued dogs were adopted after hard lives on the street; others were at the pound, hours away from being euthanized.

International Dog Day (and in the US, National Dog Day) is August 26 every year. The tradition was created by US pet advocate Colleen Paige as a day to recognise the needs of society's unwanted and cast-off dogs and affirm the commitment to adopt, donate or raise awareness of their special needs.

Hanz amplified the original message by adding an amateur radio component in 2022, taking the special-event callsign YL1DOG and operating as a single station. The following year he was joined by Chris, G5VZ, and David, G4YVM, in the UK. By 2024, a team of eight US rescue-dog advocates, operating as K2D, had come on board. This year is the biggest yet, as hams in Germany and other countries run with the pack. All operators will be looking to hear from dog-lovers and supporters in either CW or SSB on HF, on VHF/UHF simplex, or via DMR and Echolink.

International Cat Day will be operating as a separate event, two weeks before the Dog Day operators get on the air – and they will be carrying a similar message for cat-rescue awareness. See catdayradio.org for details.
